

## 48-HOUR TURNAROUND

**Our new 48-Hour Turnaround Spray Drying and Contract Spray Drying Service takes your ingredients from arrival at ECD to finished product in just two working days.**

ECD is the UK's leading supplier of toll spray drying, powder blending and packing services. We provide end-to-end contract powder processing solutions for the rapidly evolving needs of quality food and nutritional supplement providers.

We have refined and streamlined the production process, reducing production time without sacrificing our high quality standards. Now you can respond more quickly than ever to meet the latest demands of your customers and consumers.

From receiving your materials, we apply our expertise at every stage of production:

- micronisation
- batching
- mixing
- emulsion preparation
- spray drying
- cooling
- blending
- agglomeration
- granulation
- repackaging
- and finally, shipping

With over 36 years of expertise in offering spray drying services, ECD has built an industry-wide reputation for confidentiality and commitment to quality. We are flexible enough to meet all your scheduling needs. And we are committed to handling your business with integrity and respect for your recipes and the intellectual property they represent.

Whether you are a large multinational company or a small start-up, ECD takes pride in providing you with outstanding service and value. Our highly experienced team is ready to support all of your spray drying and powder blending needs, from small, pilot projects to large, full-scale production runs.

Find out more about how to get your flavour and nutritional product ideas into the marketplace to match the accelerating pace of change.
